In continuation of my letter no 781 dated 8th instant I have the honor to give the following extract from Mr Cameron's letter no 95 of 10th January 1884 intimating the results of examination in Botany of the medical students who attended his class during the session of 1883

× × ×

" Ten students joined the class at the beginning of the year but the number was subsequently reduced to an average attendance of five boys Of the latter T R Duvenalingum J Antoni and T Chenthoolattupalley Pillay proved themselves by far the most regular and industrious students They was

the more creditable to them as they had already passed in Botany during the sessions of 1882

3d The final examination was held at the Central College on the 13th ultimo Eight medical students attended and obtained marks as follows

No	Name and Rank	Botany max 100	Remarks
1	J R Dharmalingam	55	Passed
2	J Antonio	43	"
3	V Maralamony Mood	39	"
4	T Chenthoolalagatha Pillay	37	"
5	J Panpiah Naidu	35	"
6	S Ganapathy Naidu	20	Failed
7	V Thambooswamy Pillay	10	
8	C Tirumalpadam	8	

S Ganapathy Naidu would have passed with the other senior students if his attendance at classes had been more regular He will now have to study for another year with the junior students who have also failed "

No 2781

To

The Education Secretary
Bangalore

I have the honor to offer a few remarks regarding the working of the Medical School from 1st April 1883 to 31st July 1884 by which date all teaching and examinations in connection with it had ceased and arrangements had been completed for the transfer of the School to Mysore

From April to July 1883 Mr Chokka conducted the classes of Anatomy and Physiology, and these were attended by all the students senior and junior as per margin The school closed on the 25th July after a written examination had been held on the subjects of the course of all the students with the exception of Hanoomantha Naidu, who was absent The result of the examination was that

Seniors
Durmalingum
Chanthoolalthipathy
J Antonio
Masilamony
Abdool Wahab
Y Panpatrao.
Hanumantha Naidu

Juniors
Thiruvengadathy
Thimloosawmy

all the students passed - except Antonio a senior and Thumboo - - sawny a junior both of whom failed in both subjects

On the school reopening early in October Mr Chokan by my direction continued his instruction to the junior students in Anatomy and Physiology, but it became necessary to provide for the instruction of the Senior Students in Surgery medicine Midwifery and medical Jurisprudence

The only arrangement suited to the circumstances of the school - an arrange- - ment too contemplated in the Chief Commissioners proceedings - was to em- - ploy the apothecaries at head quarters to lecture under my supervision and in addition to their ordinary duties

Mr Sansman therefore took up the classes of medicine and Surgery and Mr Pritchard that of Midwifery There were 168 meetings of the classes of medicine and surgery = 336, and 61 of midwifery

Bedside instruction in medicine and Surgery, a most essential part of medical education, could not be undertaken by any of the stat officers as the Mysore Government has no hospital at head quarters Honorary Surgeon Pereira however at my request undertook the duty in connection with the Bowring Civil Hospital which furnishes a good field for clinical study

The class of medical Jurisprudence and Hygiene was assigned to Assistant Surgeon Atchyuta Rao who joined in the month of April

Durmalingum
Chanthoolatthipatty
J Antonio
Masilamony
Pamiah Naidu
Kanoomantha Rao

In July 1884 a written examination of the senior students named in the margin was held in medicine Surgery, Midwifery medical Jurisprudence and Hygiene, and all secured a pass in these subjects

One of the Senior Students named Abdool Wahab was absent from these examinations on account of illness He has since died

Also in July 1884, the junior students

were examined in Materia Medica
Anatomy and Physiology, the result
being that Theroovengada Chetty passed
and Thumboosawmy failed

In the course of the year an Ana-
-tomical figure was as you are aware
obtained on my requisition from Paris
for the use of the school — It
will much facilitate study as with also
a skeleton lately received from Madras

In conclusion I may mention that
Mr Chokse forwarded me in May of
this year a letter which he describes as
a report of his school for the year
ending March 1884, but as the letter
is not addressed to me as it should
have been is written in an objectionable
spirit and does not contain any-
-thing of interest, it is not my intention
to forward it —

I have the honor to be
Sir
